TO WHOM IT MAY CONCERN

Re: Letter of Reference

Systems Interface successfully completed the Installation, Commissioning and attended Flight Check for the ILS Replacement project at Ireland West Airport Knock.

Systems Interface worked closely with the Engineering and Safety Management team, they provided an excellent standard of work both in engineering and also Project Management, as a result the project was delivered in time and delivered to a high standard.

We have no hesitation in recommending Systems Interface to future customers, we were extremely satisfied with the professional management and commitment for the entire Systems Interface Team.

Your Sincerely,

A handwritten signature in blue ink, appearing to read "Jim Corry".

Jim Corry, Head of Technical Services
Ireland West Airport,
