To Whom it May Concern

Newquay Cornwall Airport installed a Nautel Vector VR125 Non Directional Beacon in the Autumn of 2008.

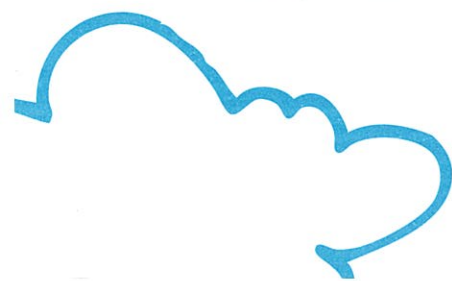

The NDB was commissioned and underwent flight inspection by Cobham Aviation to UK Civil Aviation Authority standards after which it entered service.

From commissioning the beacon has been in constant service. We have experienced no outages through equipment unserviceability and the only downtime has been through routine maintenance.

I would have no hesitation in recommending the Vector VR125 to potential purchasers.

Yours faithfully

A Foster
